INTERNATIONAL CONFERENCE

It is our immense pleasure to announce and call for Papers to the 5th LISACON International Conference on “Intelligent Libraries” (LISACON 2024) being organized by the Department of Library and Information Science, Bharathidasan University, (Nationally accredited with A+ grade by NAAC in the third cycle and 6 rank among the Indian Universities in NIRF-2024) Tiruchirappalli, Tamilnadu in collaboration with LIS Academy, Karnataka during October 17-19, 2024.

Library puts clinical model of service to its clientele.

Dr. S. R. Ranganathan

The statement itself very much emphasized on the intelligence of libraries towards provision of pinpointed, expeditious and exhaustive, of course timely information service to the clientele as to the specific as well generic information requirement.

In the present day context, intelligent libraries aimed at not only identifying, acquiring, organizing and disseminating the resources but also with intensive analysis of the information among both the print and digital resources towards matching with analyzing the transaction and information access behaviour of users, assess library services and programs, identify trends and patterns in user behaviour, inform collection development and weeding decisions, optimize library spaces and facilities, enhance user experience and engagement, support strategic planning and decision making, demonstrate library value and impact. It involves deploying a range of tools and technologies to evolve timely strategies.

By leveraging library intelligence, libraries can become more user-centered, efficient, and effective, ultimately improving their role in supporting learning, research and community engagement. As the Industry 5.0 envision the smart way of functioning towards enhanced productivity with cost and labour effective paradigms, present day libraries need to be more smarter particularly adopting the emerging technologies like Robotics, Artificial Intelligence, Super Intelligence, Data Analytics, Research Data Analytics, Block Chain, Social Networking and so on.

THEMES

With this broader scope, the conference aimed at deliberating Intellectual disclosures on the following subthemes:

Conference Theme: **“Technologies for Intelligent Libraries”**

SUB THEME 1: AI BASED LIBRARY SERVICES

- Chatbots/Robots/Virtual Assistants in Libraries
- AI Enabled library Automation
- Adaptive User Interfaces (AUI) for Library Portals
- Block Chain Technologies for Libraries
- Computer Vision Technologies for Libraries
- Tools for Immersive content creations
- Metaverse / Augmented Reality / Virtual Reality
- Collaborative 3D content Creation
- AI & Digital Libraries
- OCR Technologies
- AI powered Metadata creation
- Digital Preservation
- Information retrieval and NLP
- AI and Discovery Platforms
- AI & E-Resource Management
- AI Translations Tools
- AI/ML and Libraries: Rules and Tools

SUB THEME 2: ARTIFICIAL INTELLIGENCE AND SCHOLARLY PUBLISHING

- Emerging trends in Scholarly publishing
- Research Intelligence
- Research Support Services
- Digital Science and Digital Humanities
- Open Access Publishing Trends
- Retrieval-Augmented Generation (RAG)
- Synthesizing and Summarize AI tools,
- GPT tools: GPT3, GPT4, OpenAI
- Super Intelligence
- AI based Language Assistants
- AI Empowered Journal Selectors

SUB THEME 3: LIBRARY DATA ANALYTICS

- Data Carpentry
- E-Resource Usage data / COUNTER Data
- Predictive data analytics in Libraries
- Data reconciliation – tools and processes
- Data Security & Privacy
- Citation network and Citation data visualization.
- Science / Research data mapping
- Open Science, Open Data, Open Research
- Collection Development and Usage Metrics

SUB THEME 4: INTERNET OF THINGS & LIBRARIES

- IoT Enabled Smart Libraries
- Big Data
- Deep Learning
- RFID
- Mobile Applications
- Remote Access
- Security and Surveillance
- Green Libraries

SUB THEME 5: LEGISLATIONS AND REGULATIONS FOR CONTROLLING AI

- AI and Ethical policy framework for libraries
- AI tools to detect publication Misconduct
- Regulations for AI

Sub Theme 6: Case Studies and Best Practices
